

RBMA Business Excellence Program Radiology Practice: MDIG among the first in the nation

[Phoenix, AZ — June 12, 2019] — Medical Diagnostic Imaging Group is among the first radiology practices in the country to become an RBMA Business Excellence Program recognized practice. The Radiology Business Management Association announced that Medical Diagnostic Imaging Group in Phoenix, AZ, has been certified as an **RBMA Business Excellence Program** recognized radiology practice. Practices awarded the Radiology Business Management Association’s Business Excellence Program have demonstrated a commitment to quality at its highest level. Only practices that commit to training on the latest advancements in care quality, business management, patient satisfaction, and regulatory compliance may earn this distinction.

The RBMA created the Business Excellence Program to help the public, other physicians, and radiology stakeholders determine which practices are truly staying on top of trends and innovations while moving the field of radiology forward.

“Radiologists and technologists deciding the best place to practice, patients wanting the best possible medical imaging, physicians who order radiology tests and procedures, and many more groups have told us about the confusion they sometimes face determining which radiology practice to work with” explained RBMA Executive Director Bob Still, FRBMA. “As the nation’s leading professional organization for radiology business management, we realized that we have an excellent opportunity to help clear up some of this confusion while at the same time letting our most active members shine for the extra effort they put into advancing quality and expertise in the business of radiology.”

The RBMA awarded the first Business Excellence award at its annual member meeting, PaRADigm, held this year from April 14 to 17 at The Broadmoor in Colorado Springs, Colo. “We are so pleased that Medical Diagnostic Imaging Group is among the first practices in the country to earn this distinction,” Still said.

“The Physicians and staff of MDIG are proud to be among the first radiology practices to receive this recognition from the RBMA. Our group is committed to consistently delivering definitive diagnostic imaging reports and providing top quality diagnostic and interventional radiology services. RBMA is always on the forefront of advancing the field of radiology; it is an honor to be part of the RBMA Business Excellence Program” stated CEO of MDIG, Patrick F. Santore.
