

FOR IMMEDIATE RELEASE

MEDICAL DIAGNOSTIC IMAGING GROUP: EXPANDS INTO WESTERN PENNSYLVANIA

Phoenix, AZ – Nov. 12, 2018 Medical Diagnostic Imaging Group (MDIG), a hospital-based radiology practice will be partnering with Sharon Regional Medical Center, a Steward Family Hospital. MDIG has announced today that they will be expanding to Sharon, Pennsylvania. Patrick Santore, CEO of MDIG stated "The Physicians and staff of MDIG will endeavor to satisfy all of the professional radiology service needs of the Sharon community. We view this as the beginning of a long-term and mutually beneficial relationship designed around our mutual philosophy of providing the best possible patient care with a commitment to quality to the communities we serve."

Joseph Hugar, president of Sharon Regional Medical Center Stated, "Our organization is continuously looking for ways to improve our delivery of care across all of our service lines and are expanding our general radiology services to meet the growing demand for both inpatient and outpatient services. We are excited to announce our relationship with MDIG because of their national presence and access to quality standards and expertise in the field of radiology that best supports our growth. We are confident that they will provide the highest level of service for our patients in coordination with our exceptional health care team."

About Steward Health Care

Steward Health Care is the nation's largest private, for profit physician led health care network in the United States. Headquartered in Dallas, Texas, Steward operates 36 hospitals in the United States and the country of Malta that regularly receive top awards for quality and safety. The company employs approximately 40,000 health care professionals. The Steward network includes multiple urgent care centers and skilled nursing facilities, substantial behavioral health services, over 7,900 beds under management, and approximately 2.2 million full risk covered lives through the company's managed care and health insurance services. The total number of paneled lives within Steward's integrated care network is projected to reach three million in 2018.

The Steward Health Care Network includes five thousand physicians across 800 communities who help to provide more than 12 million patient encounters per year. Steward Medical Group, the company's employed physician group, provides more than six million patient encounters per year. The Steward Hospital Group operates hospitals in Malta and nine states across the U.S., including Arizona, Arkansas, Florida, Louisiana, Massachusetts, Ohio, Pennsylvania, Texas, and Utah.
